

# PERIYAR UNIVERSITY

# PERIYAR PALKALAI NAGAR SALEM – 636011

# BACHELOR OF COMPUTER APPLICATIONS (BCA)

CHOICE BASED CREDIT SYSTEM

### **OBE REGULATIONS AND SYLLABUS**

(SEMESTER PATTERN)
(For Candidates admitted in the Colleges affiliated to Periyar
University from 2022-2023 onwards)

### **Outcome Based Education (OBE) REGULATIONS AND SYLLABUS**

(With effect from the academic year 2022-2023 onwards)

### 1. PREAMBLE

The program prepares under Graduates in **Computer Applications** with strong theoretical input and relevant practical knowledge, who can be employed in industries. The program develops requisite professional skills and problem solving abilities to pursue a successful career in software industry and pursuing higher studies in Computer Applications.

### 2. GRADUATE ATTRIBUTES

- 1. Computational Knowledge
- 2. Problem Analysis & Solving
- 3. Design & Development of Solutions
- 4. Modern Tool Usage
- 5. Communication skills
- 6. Innovation & Entrepreneurship
- 7. Societal & Environmental concern

### 3. PROGRAMME SPECIFIC QUALIFICATION ATTRIBUTES

The programme specific qualification attributes meant to be achieved through subjects in the programme in terms of

- 1. Knowledge and understanding level (K1 and K2)
- 2. Application level (K3)
- 3. Analytical level (K4)
- 4. Evaluation capability level (K5)
- 5. Scientific or Synthesis level (K6)

### 4. ELIGIBILITY FOR ADMISSION

A candidate who has passed in Higher Secondary Examination with Mathematics or Business Mathematics or Computer Science or Statistics (Academic stream or Vocational stream) as one of the subject under Board of Higher Secondary Examination, Tamil Nadu as per norms set by the Government of Tamil Nadu or an Examination accepted as equivalent thereto by the syndicate, subject to such conditions as may be prescribed, are permitted to appear and qualify for the **Bachelor of Computer Applications** degree examination of this university after a programme of study of three academic years.

### 5. PROGRAMME OBJECTIVES AND OUTCOMES

### > Programme Educational Objectives (PEOs)

**PEO1:** Graduates are prepared to be employed in IT industries by providing expected domain Knowledge.

**PEO2:** Graduates are provided with practical training, hands-on and project experience to meet the industrial needs.

**PEO3:** Graduates are motivated in career and entrepreneurial skill development to become global leaders.

**PEO4**:Graduates are trained to demonstrate creativity, to develop innovative ideas and to work in teams to accomplish a common goal.

**PEO5:** Graduates are trained to address social issues and guided to approach problems with solutions.

### > Programme Specific Outcomes(PSOs)

### After completion of the programme the graduates will be able

**PSO1:** To understand the fundamental concepts of computer system, including hardware and networking.

**PSO2:** To Design, and analyze precise specifications of algorithms, procedures, and interaction behavior.

**PSO3:** To communicate effectively in both verbal and written form in industry and society.

**PSO4:** To apply the technologies in various fields of Computer Science, including Mobile applications, Web site development and management, databases, and computer networks.

### > Programme Outcomes(POs)

After completion of the programme, the graduates will be able

**PO1:** To understand the fundamental concepts of computer system.

**PO2:** To Design and analyze precise specifications of algorithms and interaction behavior.

**PO3:** To apply the technologies in various fields of Computer Applications.

PO4: To communicate effectively in both verbal and written form in industry and society.

### 6. DURATION OF THE PROGRAMME

The Programme shall extend over a period of three years comprising of six semesters with two semesters in one academic year. There shall not be less than 90 working days for each semester. Examination shall be conducted at the end of every semester for the respective subjects.

### 7. COURSE OF STUDY

The programme of study shall comprise instruction in the following subjects according to the syllabus and books prescribed from time to time. The syllabus for various subjects shall be clearly demarcated into five units in each subject. Part -I, Part-II, Part – III, Part – IV and Part-V subjects are as prescribed in the scheme of examination. The Extension Activities are a must for each student to take part at least in any one of the activities like NSS, YRC, SPORTS and RRC for the fulfillment of the degree.

### 8. EXAMINATIONS

The theory examination shall be three hour duration for each subject at the end of every semester. The candidate failing in any subject(s) will be permitted to appear in the subsequent examination. The practical examinations for core subjects and SBEC should be conducted at the end of the every semester.

### **Submission of Record Note Books for Practical Examinations**

Candidates appearing for practical examinations should submit bonafide Record note books prescribed for practical examinations, otherwise the candidates will not be permitted to appear for the practical examinations. However, in genuine cases where the students who could not submit the record note books, they may be permitted to appear for the practical examinations, provided the concerned Head of the Department certified that the candidate has performed the experiments prescribed for the subject. For such candidates zero (0) marks will be awarded for record note books.

### 9. REVISION OF REGULATIONS AND CURRICULUM

The University may revise/amend/ change the Regulations and Scheme of Examinations, if found necessary.

### 10. PASSING MINIMUM MARKS

### (a) Theory

The candidate shall be declared to have passed the examination if the candidate secures not less than 40 marks put together out of 100 marks (CIA+EA). Minimum 40% should be secured (30 out of 75) in EA of each theory subject.

### (b) Practical/Project viva voce

The candidate shall be declared to have passed the examination if the candidate secures not less than 40marks put together out of 100 marks (CIA + EA). Minimum 40% should be secured (24 out of 60) in EA of each Practical subject.

### 11. MARKS DISTRIBUTION AND QUESTION PAPER PATTERN FOR BCA

### 11.1 Theory – Marks Distribution

Maximum Marks : 100 Marks

External [EA] : 75 Marks

Internal [CIA] : 25 Marks

### (a) Theory - Question Paper Pattern [External]

| Section | Approaches  | Mark Pattern                             |
|---------|---|--|
| A       | One word (Answer all questions &Three questions from each unit)                           | 15X1 = 15 (Multiple<br>Choice Questions) |
| В       | 100 to 200 words (Answer any Two out of five questions &One question from each unit)      | 2X5 = 10 (Analytical type questions)     |
| С       | 500 to 1000 words(Answer ALL questions &One question from each unit with Internal Choice) | 5X10 = 50 (Essay type questions)         |

(Total Marks: 75)

### **(b) Theory - Internal Marks Distribution** (Total Marks: 25)

Attendance : 5 Marks
Assignment : 5 Marks
Test : 15 Marks

### 11.2. Practical – Marks Distribution

Maximum Marks : 100 Marks
External [EA] : 60 Marks
Internal [CIA] : 40 Marks

### (a) Practical-External Marks Distribution (Total Marks :60)

For each practical question the marks should be awarded as follows (External)

i) Algorithm/flowchart -20%
 ii) Writing the program in the main answer book
 iii) Test and debug the program -30%
 iv) Printing the correct output -20%

(Marks may be proportionately reduced for the errors committed in each of the above)

### **Practical Ouestion Paper Pattern**

### **Student should attend two questions (either or pattern)**

Note:

- (i) Practical I to Practical VII and SBEC Practical have same pattern
- (ii) Core & SBEC Practical Examination must be conducted at the end of every Semester

### (b) Practical - Internal Marks Distribution (Total Marks: 40)

Record : 15 Marks

Internal Practical examinations : 25 Marks

### 11.3 Project Evaluation:

Continuous Internal Assessment : 40 Marks
Evaluation (External) : 40 Marks
Viva-voce (jointly) : 20 Marks

### 12. COMMENCEMENT OF THIS REGULATION:

These regulations shall take effect from the academic year 2022-2023, i.e, for students who are to be admitted to the first year of the programme during the academic year 2022-23 and thereafter.

# Scheme of Examinations from the Academic Year 2022-2023 Credit Distribution as per the University Norms.

# Allied Subjects for any Degree offered by the Department of Computer Applications SYLLABUS - CBCS PATTERN

### EFFECTIVE FROM THE ACADEMIC YEAR 2021-2022

All Papers should be handled and valued by Computer Science Department only. For University practical examinations both Internal and External examiners should be appointed from Department of Computer Science / Applications. (Select any one of the Subject options with Practical)

# FIRST OPTION (Allied Computer Science) First Year / Second Year

| PART | SEMESTER  | SUBJECT TITLE  | Hrs.  |     | CRE | MARKS |    |       |

# SEMESTER I

| Subject Title       | PROBLEM SOLVING THROUGH C | Semester       | I        |
|---------------------|---------------------------|----------------|----------|
| <b>Subject Code</b> | 22UCA01                   | Specialization | NA       |
| Type                | Core: Theory              | L:T:P:C        | 86:6:0:5 |

- 1. It aims to provide exposure to problem-solving through programming.
- 2. To apprehend the basic concepts of C- Programming language. This course introduces fundamental concepts such as arrays and structures.
- 3. It covers concepts such as arrays, pointers and file handling methods.
- 4. It provides technical skills to design and develop various applications.

| CO<br>Number | CO Statement                                    | Knowledge Level |

| Subject<br>Title | PRACTICAL I: C-PROGRAMMING | Semester       | I        |
|------------------|----------------------------|----------------|----------|
| Subject<br>Code  | 22UCAP01                   | Specialization | NA       |
| Type             | Core: Practical            | L:T:P:C        | 45:0:3:2 |

- 1. To impart Practical Training in C Programming Language.
- 2. Familiarize the different control and decision making statements in —Cl.
- 3. Build programs using arrays and strings.
- 4. Provide knowledge on working with files and functions.

### **LIST OF PROGRAMS**

- 1. Develop a C program to print prime numbers within the range of integers given. .
- 2. Develop a C Program to find the sum and average of given N numbers.
- 3. Develop a C Program using all decision making and looping statements.
- 4. Develop a C Program to arrange the given numbers in ascending /descending order.
- 5. Develop a C Program to perform matrix multiplication.
- 6. Develop a C Program to manipulate string functions.
- 7. Develop a C Program to find the Fibonacci series for a give number using recursive function.
- 8. Develop a C Program to show Call by Value and Call by Reference.
- 9. Develop a C program to swap two numbers using pointers.
- 10. Develop a C Program to update the student's details using various file modes.
- 11. Develop a C Program to copy the content of one file to another file.

### **COURSE OUTCOME:**

- 1. Study all the Basic Statements in C Programming.
- 2. Practice the usage of branching and looping statements.
- 3. Apply string functions and arrays usage.
- 4. Analysis the use of pointers and files.

| Subject<br>Title | Object Oriented Programming Concepts Using<br>C ++ | Semester       | п        |
|------------------|--|----------------|----------|
| Subject<br>Code  | 22UCA02  | Specialization | NA       |

- 1. To enable the students to design and develop the C++ programs.
- 2. To qualify the students working with overloading and inheritance.
- 3. To improve creative thinking in virtual functions and files.

### LIST OF PROGRAMS

- **1.** Write a C++ program to demonstrate function overloading, Default Arguments and Inline function.
- **2.** Write a C++ program to demonstrate Class and Objects with the concept of Passing Objects to Functions.
- **3.** Write a C++ program to demonstrate Constructor and Destructor.
- **4.** Write a C++ program to demonstrate Unary and Binary Operator Overloading.
- **5.** Write a C++ program to demonstrate:
  - Single Inheritance.
  - Multilevel Inheritance.
  - Multiple Inheritance.
  - Hierarchical Inheritance.
  - Hybrid Inheritance.
- **6.** Write a C++ program to demonstrate Virtual Functions.
- 7. Write a C++ program to manipulate a Text File.
- **8.** Write a C++ program to perform Sequential I/O Operations on a file.
- **9.** Write a C++ program to find the Biggest Number using Command Line Arguments.
- **10.** Write a C++ program to demonstrate Class Template.
- 11. Write a C++ program to demonstrate Exception Handling.

### **COURSE OUTCOME:**

On successful completion of the course, the students will

- 1. Understand the features in OOPS.
- 2. Select and apply proper statement relative to problems.
- 3. Combine multiple features in C++ to implement complex problems.

| Subject Title       | COMPUTER ORGANIZATION AND ARCHITECTURE | Semester       | п        |
|---------------------|--|----------------|----------|
| <b>Subject Code</b> | 22UCA03                                | Specialization | NA       |

- 1. To impart Practical Training in DDL Commands.
- 2. Familiarize the different DML Commands.
- 3. Build queries with SQL Commands.
- 4. Provide knowledge on working with big tables.

### **LIST OF PROGRAMS:**

<u>NOTE</u>: Demonstrate the following SQL commands and can take any back end RDBMS system for implementation purpose.

- 1. Data Definition of Base Tables.
- 2. DDL with Primary key constraints.
- 3. DDL with constraints and verification by insert command.
- 4. Data Manipulation of Base Tables and Views.
- 5. Demonstrate the Query commands.
- 6. Write a PL/SQL code block that will accept an account number from the user and debit an amount of Rs. 2000 from the account if the account has a minimum balance of 500 after the amount is debited. The Process is to fired on the Accounts table.
- 7. Write a PL/SQL code block to calculate the area of the circle for a value of radius varying from 3 to 7. Store the radius and the corresponding values of calculated area in a table Areas. Areas radius, area.
- 8. Write a PL/SQL block of code for reversing a number. (Example: 1234 as 4321).
- **9.** Create a transparent audit system for a table Client\_master (client\_no, name, address, Bal\_due). The system must keep track of the records that are being deleted or updated. The functionality being when a record is deleted or modified the original record details and the date of operation are stored in the audit client(client\_no, name, bal\_due, operation, user-id, update) table, then the delete or update is allowed to go through.

### **COURSE OUTCOME:**

- 1. Study all the Basic DDL and DML Commands.
- 2. Practice the usage of SQL Statements.
- 3. Apply PL/SQL code usage.
- 4. Analysis the use of PL/SQL for complex problems.

| Subject<br>Title | SBEC I - OFFICE AUTOMATION LAB | Semester       | Ш        |
|------------------|--------------------------------|----------------|----------|
| Subject<br>Code  | 22UCASP01                      | Specialization | NA       |
| Type             | SBEC: Practical                | L:T:P:C        | 30:0:2:3 |

- 1. To acquire knowledge on editor, spread sheet and slide preparation.
- 2. To improve creative thinking in presentation software.

### LIST OF PROGRAMS:

### I. MS-WORD

- 1. Text Manipulation: Write a paragraph about your institution and Change the font size and type, Spell check, Aligning and justification of Text.
- 2. Bio data: Prepare a Bio-data.
- 3. Find and Replace: Write a paragraph about yourself and do the following. Find and Replace Use Numbering Bullets, Footer and Headers.
- 4. Tables and manipulation: Creation, Insertion, Deletion (Columns and Rows). Create a mark sheet.
- 5. Mail Merge: Prepare an invitation to invite your friends to your birthday party. Prepare at least five letters.

### II. MS-EXCEL

- 1. Data sorting-Ascending and Descending (both numbers and alphabets).
- 2. Mark list preparation for a student.
- 3. Individual Pay Bill preparation.
- 4. Invoice Report preparation.
- 5. Drawing Graphs. Take your own table.

### III. MS-POWERPOINT

- 1. Create a slide show presentation for a seminar.
- 2. Preparation of Organization Charts.
- 3. Create a slide show presentation to display percentage of marks in each semester for all students
  - 1. Use bar chart (X-axis: Semester, Y-axis: % marks).
  - 2. Use different presentation template different transition effect for each slide.

| Subject Title       | PRACTICAL IV- JAVA PROGRAMMING | Semester       | IV       |
|---------------------|--------------------------------|----------------|----------|
| <b>Subject Code</b> | 22UCAP04                       | Specialization | NA       |
| Type                | Core: Practical                | L:T:P:C        | 45:0:3:2 |

- 1. To impart Practical Training in JAVA Programming Language.
- 2. Familiarize the different control and decision making statements in JAVA.
- 3. Build programs using Packages.
- 4. Provide knowledge on working with Exception handling functions.

## **LIST OF PROGRAMS:**

- 1 Write a program to find the Area of Square, Rectangle and Circle using Method Overloading.
- 2 Write a program to sort the list of numbers using Command Line Arguments.
- 3 Write a program to multiply the given two matrices.
- 4 Write a program to design a class to represent a bank account. Include the following:

Data Members: Name of the depositor, Account number, Type of account, and Balance amount in the account.

Methods: To assign initial values, To deposit an amount, To withdraw an amount after checking balance, and To display the name and balance.

- 5 Write a program that import the user defined package and access the Member variable of classes that contained by Package.
- 6 Write a program to handle the Exception using try and multiple catch blocks.
- 7 Write a program to illustrate the use of multi threads.
- 8 Write a program to create student registration form using applet with Name, Address, Sex, Class, Email-id.
- 9 Write a program to draw the line, rectangle, oval, text using the graphics method.
- 10 Write a program to create a sequential file that could store details about five products. Details include product code, cost, and number of items available and are provided through the keyboard. Compute and print the total value of all the five products

# **COURSE OUTCOME:**

- 1. Study all the Basic Statements in java Programming.
- 2. Practice the usage of branching and looping statements.
- 3. Apply Packages and Interfaces.
- 4. Analysis the use of graphics tools in JAVA.

#### **B.Sc.**(Computer Science) / **BCA** / **B.Sc.**(Information Science)

# Semester IV: Add-on Course Internship Programme

#### **OBJECTIVES:**

- To make students acquire practical knowledge by going to a company and learn in a live environment
- To make students learn team work and work ethics
- To make students to know the recent trends in Web/Mobile Application Development, Networking or any other area relevant to their study
- To make students analyse their skills and interests
- To help students examine academic and career goals

#### **OUTCOME**:

At the end of this internship programme the students will be able to

- apply theory to real life
- work as a part of team
- learn from the company experts
- learn latest trending technologies
- come out with a high morale
- enrich CV

**About the internship programme:** The internship programme provides students with practical, real-world experience and a valuable complement to their academic training. It enhances the students' skills in problem solving by making him/her work in a live environment in which systematic problem solving methods are practised.

**Duration**: Internship requires students to spend a minimum of 15 days (during vacation) employed, full-time, as IT interns or trainees during vacation at the end of fourth semester. During this period, they are engaged in work of direct relevance to their programme of study.

**Areas**: Some of the fields that are open to students include:

- Online Publishing and Editing
- Online Advertising
- Web/Mobile Application Development
- E-Marketing / Online Marketing
- Any other field related to Computer Science / Applications / Information Science

**Certificate:** A certificate is to be obtained from the organization in which the student undergoes internship programme. This certificate is to be submitted to the college within fifteen days after the college reopens for the next semester.

**Credits:** The Internship programme does not carry any credit.

| Subject<br>Title | DATA MINING AND WAREHOUSING | Semester       | V        |

|------------------|----------------------------------|----------------|----------|
| Subject<br>Code  | 22UCAP05                         | Specialization | NA       |
| Type             | Core: Practical                  | L:T:P:C        | 45:0:3:2 |

- 1. To impart Practical Training in Control panel tools.
- 2. Familiarize with HTML Tags.
- 3. Build programs using Java script.
- 4. Provide knowledge on working with events and methods.

#### **LIST OF PROGRAMS:**

- 1. Create a form having number of elements (Textboxes, Radio buttons, Checkboxes, and so on). Write JavaScript code to count the number of elements in a form.
- 2. Create a HTML form that has number of Textboxes. When the form runs in the Browser fill the Text boxes with data. Write JavaScript code that verifies that all textboxes has been filled. If a textboxes has been left empty, popup an alert indicating which textbox has been left empty.
- 3. Develop a HTML Form, which accepts any Mathematical expression. Write JavaScript code to Evaluates the expression and Displays the result.
- 4. Create a page with dynamic effects. Write the code to include layers and basic animation.
- 5. Write a JavaScript code to find the sum of N natural Numbers. (Use user-defined function)
- 6. Write a JavaScript code block using arrays and generate the current date in words, this should include the day, month and year.
- 7. Create a form for Student information. Write JavaScript code to find Total, Average, Result and Grade.
- 8. Create a form for Employee information. Write JavaScript code to find DA, HRA, PF, TAX, Gross pay, Deduction and Net pay.
- 9. Create a form consists of a two Multiple choice lists and one single choice list
  - (a) The first multiple choice list, displays the Major dishes available (b) The second multiple choice list, displays the Starters available. (c) The single choice list, displays the Soft drinks available.

# **COURSE OUTCOME:**

- 1. Study all the Basic tools.
- 2. Practice the usage of web page creation and useable objects.
- 3. Apply various effects webpage.
- 4. Analysis the use of java script and html code.

| Subject<br>Title | VISUAL PROGRAMMING | Semester       | V        |
|------------------|--------------------|----------------|----------|
| Subject<br>Code  | 22UCA10            | Specialization | NA       |

| Subject<br>Title | PRACTICAL V : PROGRAMMING IN VB | Semester       | V        |
|------------------|---------------------------------|----------------|----------|
| Subject<br>Code  | 22UCAP06                        | Specialization | NA       |
| Type             | Core: Practical                 | L:T:P:C        | 60:0:4:2 |

- 1. To enable the students to design and develop the VB programs.
- 2. To qualify the students working with numbers and strings.
- 3. To improve creative thinking in creating forms.

## **LIST OF PROGRAMS:**

- 1. Construction of an Arithmetic Calculator (Simple).
- 2. Writing simple programs using loops and decision making statements.
  - a. Generate Fibonacci series.
  - b. Find the sum of N numbers.
  - c. To display the numbers/symbols in triangle format.
- 3. Write a program to create a menu and MDI Forms.
- 4. Write a program to create a simple input screen with four basic controls to read input and write it to a file.
- 5. Write a program to display files in a directory using DriveListBox, DirListBox and FileListBox control and open, edit and save text file using Rich text box control.
- 6. Write a program to illustrate Common Dialog Control and to open, edit and save text file
- 7. Write a program to develop windows based installation file with Student Registration form and Login form using database access
- 8. Develop a program to Insert, update, delete a Record in database using ADO
- 9. Write a program to implement Personal Information System using MDI and Standard ADODC controls and reports.
- 10. Write a program to implement animation using timers.
- 11. Railways Reservation System (Using Tables).

## **COURSE OUTCOME:**

On successful completion of the course, the students will

- 1. Understand the features in VB.
- 2. Select and apply statements for design forms.
- 3. Combine multiple features in interface and database.

| Subject Title       | SBEC III : MOBILE APPLICATION<br>DEVELOPMENT | Semester       | V        |

- 1. To impart Practical Training in android developer tools.
- 2. Build programs using Flutter / Android Studio environment.
- 3. Provide knowledge on working with simple android apps.

## **LIST OF PROGRAMS:**

- 1. Sample application about Android Resources
- 2. Sample application about Layouts.
- 3. Sample application about Intents.
- 4. Sample application about User Interfaces.
- 5. Sample application about Animations.
- 6. Create calculator app in Android.
- 7. Create sample android Camera Application.
- 8. Create basic list view demo in Android.

## **COURSE OUTCOME:**

- 1. Study all the Basic Tools.
- 2. Practice the usage of control panel objects.
- 3. Apply various commands for layouts and animations.
- 4. Analysis the use of SQLite I.

| <b>Subject Title</b> | PROGRAMMING IN PYTHON | Semester       | VI       |

| Subject<br>Title | PYTHON PROGRAMMING | Semester       | VI       |
|------------------|--------------------|----------------|----------|
| Subject<br>Code  | 22UCAP07           | Specialization | NA       |
| Type             | Core: Practical    | L:T:P:C        | 60:0:4:3 |

- 1. To impart Practical Training in basic python statements.
- 2. Familiarize with control flow tools.
- 3. Build programs using data structure concepts.
- 4. Provide knowledge on working with exception and string handling.

## **LIST OF PROGRAMS:**

- 1. Create a simple calculator to do all the arithmetic operations.
- 2. Write a program to use control flow tools like if.
- 3. Write a program to use for loop.
- 4. Data structures
  - a. use list as stack.
  - b. use list as queue.
  - c. tuple, sequence.
- 5. Create new module for mathematical operations and use in your program.
- 6. Write a program to read and write files, create and delete directories.
- 7. Write a program with exception handling.
- 8. Write a program using classes.
- 9. Connect with MySQL and create address book.
- 10. Write a program using string handling and regular expressions.

## **COURSE OUTCOME:**

- 1. Study all the Basic commands.
- 2. Practice the usage of control flow statements.
- 3. Apply various commands in files and directories.
- 4. Analysis the use of MYSQL to connect database.

#### MINI PROJECT

#### III YEAR / VI SEM

#### **OBJECTIVES:**

The aim of the mini project is that the student has to understand the real time software development environment. The student should gain a thorough knowledge in the problem and language / software which he/she has selected for their project work.

## **Project Planning:**

B.Sc (Computer Science / Information Science)/BCA Mini Project is an involved exercise, which has to be planned well in advance. The topic should be chosen in the beginning of final year itself. Related reading training and discussions of project should be completed in the first term of final year.

#### I Selection of Team

To meet the stated objectives, it is imperative that mini project is done through a team effort. Though it would be ideal to select the team members at random and this should be strongly recommended, due to practical consideration students may also be given the choice of forming themselves into teams with Two members. A team leader shall be selected. Team shall maintain the minutes of meeting of the team members and ensure that tasks have been assigned to every team member in writing. Team meeting minutes shall form a part of the project report. Even if students are doing project as groups, each one must independently take different modules of the work and must submit the report.

#### **II Selection of Tools**

No restrictions shall be placed on the students in the choice of platform/tools/languages to be utilized for their project work, though open source is strongly recommended, wherever possible. No value shall be placed on the use of tools in the evaluation of the project.

## **III Project Evaluation:**

Continuous Internal Assessment : 40 Marks Evaluation (External) : 40 Marks Viva-voce (jointly) : 20 Marks

There shall be a common written examination conducted for all the candidates in each group together for a minimum of 10 minutes.

- (i) Requirement Specification of Project
- (ii) Design of Project
- (iii) Testing and Implementation of Project

#### IV REGULATIONS OF PROJECT WORK

- Three copies of the project report must be submitted by each student...
- The final outer dimensions of the project report shall be 21cm X 30 cm.
- Only hard binding should be done. The text of the report should be set in 12 pt, Times New Roman, 1.5 spaced.

- Headings should be set as follows: CHAPTER HEADINGS 16 pt, Arial, Bold, All caps, Centered.
- Section Headings 14 pt Bookman old style, Bold, Left adjusted.
- Section Sub-heading 12 pt, Bookman old style.
- Title of figures tables etc are done in 12 point, Times New Roman, Italics, centered.
- Only 1.5 space need be left above a section or subsection heading and no space may be left after them.
- References shall be IEEE format (see any IEEE magazine for detail) While doing the project keep note of all books you refer, in the correct format and include them in alphabetical order in your reference list.
- The Candidate should submit the filled in format as given in Annexure-I to the department for approval during the First Week of December.
- Periodically the project should be reviewed.
- A Sample format is enclosed in Annexure-II.
- Format of the Title page and Certificate are enclosed in Annexure III.
- The students may use power point presentation during their viva voce examination.

| Type          | Elective: Theory                            | L:T:P:C        | 86:6:0:4 |

- 1. To understand about Wireless Networks.
- 2. To familiar with Protocol Stack and Standards.
- 3. To be exposed to 3G/4G Services.
- 4. Gain knowledge about Its Protocols and Applications.

- 1. To enable the students to design and develop the Office applications.
- 2. To qualify the students working in editor, spread sheet and slide preparation.
- 3. To improve creative thinking in presentation software

#### LIST OF PROGRAMS

#### I. MS-WORD

- 1. Text Manipulation: Write a paragraph about your institution and Change the font size and type, Spell heck, Aligning and justification of Text.
- 2. Bio data: Prepare a Bio-data.
- 3. Find and Replace: Write a paragraph about yourself and do the following. Find and Replace Use Numbering Bullets, Footer and Headers.
- 4. Tables and manipulation: Creation, Insertion, Deletion (Columns and Rows). Create a mark sheet.
- 5. Mail Merge: Prepare an invitation to invite your friends to your birthday party. Prepare at least five letters.

#### II. MS-EXCEL

- 1. Data sorting-Ascending and Descending (both numbers and alphabets).
- 2. Mark list preparation for a student.
- 3. Individual Pay Bill preparation.
- 4. Invoice Report preparation.
- 5. Drawing Graphs. Take your own table.

#### III. MS-POWERPOINT

- 1. Create a slide show presentation for a seminar.
- 2. Preparation of Organization Charts.
- 3. Create a slide show presentation to display percentage of marks in each semester for all students
- 4. Use bar chart (X-axis: Semester, Y-axis: % marks).
- 5. Use different presentation template different transition effect for each slide.

#### **COURSE OUTCOME:**

On successful completion of the course, the students will

- 1. Understand the features in MS Word.
- 2. Select and apply worksheet and functions in MS EXCEL.
- 3. Combine multiple features in MS POWER POINT to prepare presentations.

#### **ALLIED OPTION II**

| Subject Title       | DATABASE SYSTEMS | Semester       | I/III    |

Paper should be handled and valued by Computer Science Department.

| Subject<br>Title | ALLIED PRACTICAL - II<br>HTML PROGRAMMING | Semester       | II/IV    |
|------------------|---|----------------|----------|
| Subject<br>Code  | 21UCSAP02                                 | Specialization | NA       |
| Type             | Allied: Practical                         | L:T:P:C        | 30:0:2:2 |

- 1. To enable the students to design and develop the WEB PAGES.
- 2. To qualify the students working with tags in table.
- 3. To improve creative thinking in forms, lists and frames.

#### LIST OF PROGRAMS

- 1. Write HTML code to develop a web page that contains the different background and foreground color, with various styles.
- 2. Write HTML code to create a Webpage that contains an Image at its left hand side of the page when user clicks on the image; it should open another web page that displays the details of that image.
- 3. Create a web Page using HREF tag having the attribute ALINK, VLINK etc.
- 4. Create a web page, when user clicks on the link it should go to the bottom of the page.
- 5. Write a HTML code to create a web page of pink color and display moving message in red color.
- 6. Create a web page, showing an ordered list of name of your five friends and unordered list of any five your hobbies.
- 7. Create a HTML document containing a nested list showing the content page of any book.
- 8. Create a student mark list in HTML using Tables.
- 9. Create a HTML page to demonstrate the usage of Frames. Choose the content of the page on your own.
- 10. Design an application for pay slip through HTML forms

#### **COURSE OUTCOME:**

On successful completion of the course, the students will

- 1. Understand the features in HTML.
- 2. Select and apply tags for create text, list and table.
- 3. Combine multiple features in forms, frames and texts.

Note: For University Practical Exam, both Internal and External should be appointed from Department of Computer Science/BCA.
